

I am known as art koberinski and I believe I am your best choice to fill the office of Mayor of Huron-Kinloss.

We have seen many changes over the past decade or so. Some positive and some not.

I believe it is time to ask the question “why” have we seen so many changes to our beautiful, peaceful, rural community?

Since our ancestors decided to settle here generations ago, they built a community that worked together, helped each other and enjoyed the peace, beauty and bounty of the area.

Something has changed and the changes seem to be coming faster and faster. These changes have upset the balance of our community.

Some council decisions have pitted neighbour against neighbour. Others have left the people feeling powerless.

People generally feel they aren't being heard or they can't make a difference.

I want people to know that as your mayor you will be heard and yes, you can make a difference.

In fact I will do everything I can to encourage you to become involved in decision making as did our forefathers.

-When did corporations become superior in status to the living breathing people of this community in the eyes of the county courts?

How was this accomplished?

-Why is the will of the people not a priority to the profits of corporate interests?

-Why is it acceptable for corporate policy to harm the men and women with-

out accountability for the actions of the men and women who direct these entities?

-Why do our educators not question the policy of the boards who direct the programs that are to influence our beloved babies?

-Why does funding take precedence over the well being of the people?

-Why are the policies of corporate interests spoken of in secret meetings?

-Who thinks it is a good idea to bury nuclear waste beside the planet's largest supply of fresh water?

-Why do we need to “borrow” any money from an International Monetary Fund?

-Why do police officers refuse to identify who they are upon request as they are mandated to do so within their own regulations?

-Why do municipal employees refuse to produce identification when requested to do so by the electorate?

-Why is it that certain documentation is not available to interested parties as to the formation of the legal entities of the municipal structure?

-Why is this election being conducted through internet and telephone without a polling station?

-Who agreed to this and was that decision decided on by the electorate?
how many levels of “government” are claiming jurisdiction in our community?

I have researched these questions and many others and have been amazed at where the answers have led me.... I have made a decision to stand up for what I believe is the right thing to do....which is to help inform the good men and women of this community as to my findings and my journey in challenging the status quo.... or the state of things.... I ask you for the opportunity to speak my truth and for an honest and open discussion of all concerns and issues facing the wonderful friends and families in this magnificent place to live.
